March/April 2010

Dear Family and Friends,

After our very mild winter, we have been experiencing quite a bit of rain, but that is normal for this time of year. Once baseball/softball season starts, we know rain will be here often. We are thankful for the moisture and that there is even a bit of snow falling in the mountains.

The last weekend in March, Abbie and Janet were able to drive to Iowa to do a Friday night through Saturday basket retreat. There were about 20 in attendance. It was a great time to be able to be back there and to visit with so many who have been out here with us. In April, there was an overnight basket retreat, along with a one day class here at the camp. What a great group of ladies! It is fun to see how this retreat has grown through the years.

Clyde and Nathaniel have been keeping busy with fire training and coordinating things with our local rural fire department. Nathaniel has had the opportunity to attend fire training classes in Kalispell for 8 weekends in order to get his Firefighter 1 Certificate. He is looking forward to adding to that as he can. It isn't something he has thought about as a career since he was about 4 years old, but Nathaniel really enjoys learning all he can and is looking into the possibilities of where this might take him. Having helped Clyde with some electrical through the years has made some of his study easier.

Around camp more work has been done in the fire hall and in a couple of the cabins. We are thankful that Alex and Grandma help wherever and whenever needed.

We would like to get a pad poured behind the pavilion so that we can get the cooler box installed before the summer season. The old cooler in the pavilion is no longer working and we need to get that take out and the newer, bigger one in place. It will allow more cold storage, as well as a bit more room in the kitchen for another prep area. We pray for additional finances to accomplish this project.

Thank you for your prayers and support, *Clyde Miller*

*Please  
pray  
with us  
about a  
trade in  
property  
so that  
we can  
protect  
our bor-  
ders.  
We  
should  
know  
soon.*
