The screenshot shows a web browser window with the Microsoft Download Center page. The page features a navigation bar with links for Windows, Office, Web browsers, Developer tools, Xbox, and More. A large banner for the new Surface Pro is visible, along with a "SHOP NOW >" button. Below the banner, the page title "Malicious Software Removal Tool" is displayed. A system selection section indicates "For your system: Windows 10 64-bit" with a "Change Systems" link. A language selection box shows "English" selected, with a "Download" button next to it. Below this, a paragraph explains that the Windows Malicious Software Removal Tool (MSRT) helps keep Windows computers free from prevalent malware and is generally released monthly as part of Windows Update or as a standalone tool.
